Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-13, 16-20 are rejected under 35 U.S.C. 112 (second paragraph) as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 8, the applicant recites "a storing or updating system", "the storing or updating system" which are not the steps carried in the claimed process. It is unclear whether the applicant intends to recite a process or an apparatus for storing and updating control unit data.

The similar problem exists in claims 9, 10, 12, 16, and 19.

The applicant is required to revise the claims in order to define more clearly the invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application

Art Unit: 3663

by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 8-25 are rejected under 35 U.S.C. 102 (e) as being anticipated by Akiyama (US 20030093216A1).

The U.S reference to Akiyama directs to a vehicle navigation system/method comprising: a memory medium reader included in the data memory apparatus (5) (Akiyama, page 2, paragraph 0026), the control apparatus (1) coupled to the memory apparatus (5) for processing data. Akiyama further teaches that the route guiding program (9), which described as the control unit data for the vehicle, is read by the control apparatus (1). After reading, the control apparatus (1) calculates a route to guide a user using the map data read from the memory apparatus (5) (Akiyama, page 2, paragraph 0035).

Response to Arguments

The applicant's arguments, see applicant's appeal, filed 05/17/06, with respect to claims 8-25 have been fully considered and are persuasive. The final rejection of claims 8-25 has been withdrawn.
